10 REASONS TO BUY A KENNEDY SOLAR ATTIC FAN

1. Extends the life of roof shingles and underlayment
2. Reduces HVAC loads and run times during summer
3. Helps prevent ice damming during winter
4. Reduces damage caused by attic moisture build-up
5. Heavy-duty aluminum housing powder coated for extra durability - black, bronze or mill finish
6. Solar panel is built into the housing to better withstand High Velocity Hurricane Zones (HVHZ)
7. Quick, easy installation – no structural changes
8. Florida Building Code Approved
9. Limited Lifetime Warranty on all components
10. Qualifies for Federal Solar Tax Credits
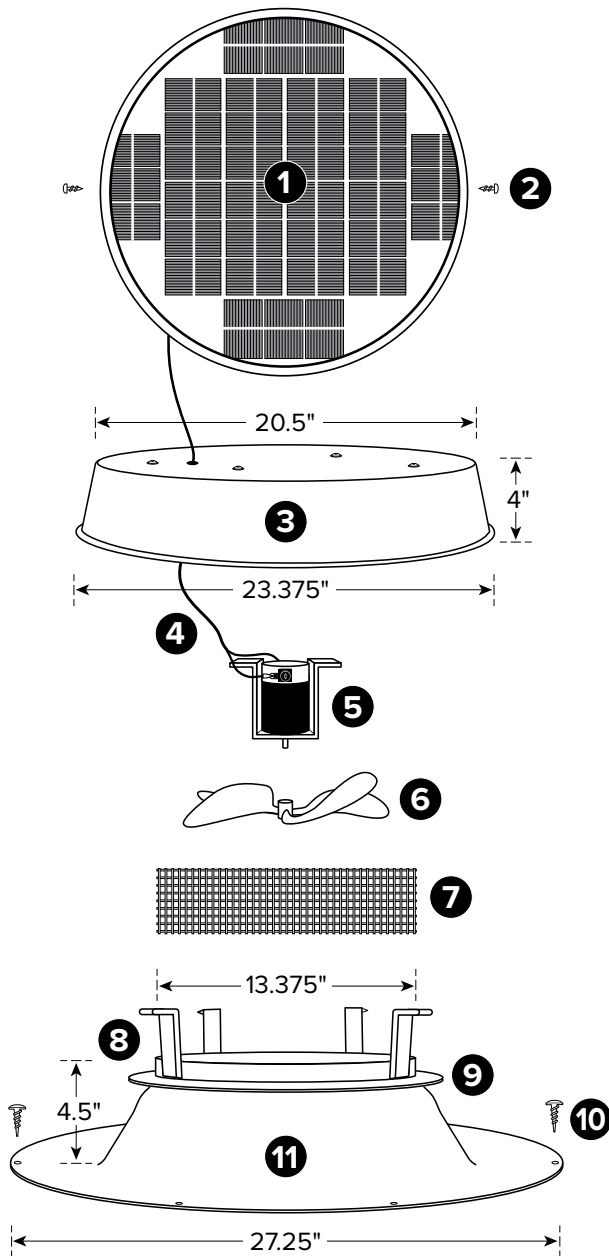

ACCOMMODATES THICKER TILES

Tile Profile Model

The Tile Profile fan was specifically designed to accommodate thicker tile or slate roofs. It features all the same quality components as our rugged Ultra Low Profile fan, but the housing portion of the fan is raised 3 inches higher to clear the thicker roofing material.

11. Commercial Grade Aluminum Roof Mount Flashing

Florida Building Code Approved (#FL13509-R8)
Meets Florida's strict building codes and safety regulations. Passed a series of tests for harsh climate, extreme weather, quality and performance.
Available Accessories:

Thermal Switch
Automatically turns fan ON when attic reaches approximately 80°F and OFF at 70°F.

Fire Safety Switch
Helps stop the spread of attic fires by shutting OFF the fan when attic temp reaches 228°F.

Tile Flashing Skirt
Soft mold-able, heavy-gauge aluminum with rubber seal to ensure a weather-tight install.

Tile Turret Extension
Raises the fan housing 3 inches to allow additional room for thicker tile roofs.
